Core Competencies

Total Healthcare Solutions (THS) is able to help the District of Columbia, Department of Health (DOH) to receive **both products and services** that are necessary to improve the quality of health in Washington.

- THS provides **talented human resources**: clinicians, analytical researchers, health program evaluators, and project managers.
- THS has a **logistics and distribution system** to acquire medical supplies and pharmaceutical products, and then supply them to residences, businesses, and governments within Washington, DC.

Differentiators

- THS is one of **only 3 CBE's** with the Resident Distributor license. This license allows DOH a State approved drug distribution resource, led by locally based talent.
- Opposed to the bigger companies who will make customers accommodate their needs, THS is small enough to remain **agile and dynamically make adjustments** to suit DOH preferences.
- THS has proudly been the **largest supplier of pharmaceutical products** to the District of Columbia government. The systems and people that we have in place are working and are proven – DOH will not be experimenting and testing the waters with a new vendor.

Company Data

Founded in 2007, THS now manages several contracts with federal and state governments to improve health quality and decrease costs of care.

- DUNS Number 805484990
- Tax ID: 26-0467733
- CBE # LSDZR33202112016
- On DC Supply Schedule
- Resident Distributor license # DW0000022
